

Legend Desktop for Pro/INTRALINK

Legend Desktop for Pro/INTRALINK is a program designed to capture information from engineering documents and import that information into Pro/INTRALINK creating a link between Pro/INTRALINK and AutoCAD for the lifetime of the documents.

- Legend Desktop automates the process of registering the data with Pro/INTRALINK
- Builds an intelligent link between your drawings and Pro/INTRALINK
- Examines your drawing files while in AutoCAD for predefined information and loads that information into Pro/INTRALINK
- If links do not exist, Legend Desktop prompts you for the information's location and remembers that location each time that drawing is accessed from that time forward
- Legend Desktop has been developed to automatically establish and maintain data links between your drawings and Pro/INTRALINK
- Supports AutoCAD V14 - AutoCAD 2005

For More Information
